

**RETROROFLEX**

# Retroflex Flexo Presses

Retroflex is the leader in providing high quality flexographic printing presses for flexible packaging or paper to suit virtually every need and budget. Whether your needs require a simple manually operated press or a state of the art press with full servo and on-press sleeve changes, Retroflex can meet your needs. Retroflex offers a broad range of features in 1 to 10 color Stack, inline or central impression (CI) presses. Widths are available from 1.5" to 150" or more with speeds to 3000 FPM.

Base series = Basic robust design.

Ultra = All servo. On-press sleeves changes standard.

HD = Wider range of options/capabilities.

EVP = Envelope market
